

## Business Developer / Sales – Plug & Play Solar

Supersola – [www.supersola.com](http://www.supersola.com) -  
Solar Energy ready right out of the  
box:

# supersola

*place it on your roof, fill it with water and plug it in!*

Our patented design does not need to be installed. Just place it on any flat surface, fill it with water (*so the wind won't blow it off the roof*), and plug it into any wall socket. No need for difficult cabling!

We have successfully sold 100 pilot units; finalized our commercial design and are preparing for mass production; that's why we need your help to create partnerships, land distributors and get sales rolling.

### **Our view on the role**

We strongly believe in following your passion – creating your own opportunities – that means freedom, flexibility, an entrepreneurial mindset and closing deals. Help increase visibility and sales of Supersola by acquiring new customers and maintaining the relationship. Help shape our future, and yours in the process: the more we grow, the more you grow.

We are a startup – with all its advantages, and downsides. There is no onboarding process, company car or a large fixed salary. But we do pay success.

Do you know how to start, plan and close?

Let's have a drink!

### **What we look for:**

- Entrepreneurial / Commercial mindset
- Communicative Networker
- Proactive, self-motivated, closer
- Dutch language fluently
- *Big plus: network in retail, resellers, distributors*

### **What we offer**

An opportunity in a booming market and promising startup. Freedom, flexibility and growth opportunities. Start with a 7 month contract, intention to extend it.
